Skills– Graduate* is able to:

--	--

* In appendix to the Regulation of Minister of Science and Higher education from 26th of July 2019 „graduate”, not student is mentioned.

5. ADDITIONAL EFFECTS OF LEARNING (non-compulsory)

Number of effect of learning	Effects in the fields of:
-------------------------------------	----------------------------------

Knowledge – Graduate knows and understands:

K1	
----	--

Skills– Graduate is able to:

S1	
----	--

Social Competencies – Graduate is ready for:

SC1	
-----	--

6. CLASSES

Form of class	Class contents	Effects of Learning
Lectures on the e-learning platform	<p>W1 * - Functions of communication and the importance of communication in medical practice. An introductory lecture that informs about the function that communication plays, especially during the provision of medical services. Specific areas that are affected by effective communication are presented.</p> <p>W2 * - Types of communication. Ways of communicating, responding to messages are discussed; the division between verbal and non-verbal communication is detailed and their mutual influence on each other is described, as well as the effects of inconsistencies between the message coming from different types of communication.</p> <p>W3 * - Ways of establishing contact and building a relationship with the patient. How the relationship is established projects the entire course of the relationship. During the lecture, the topics of preparing the space and ourselves to start a consultation with the patient are discussed. Elements that affect the building of a relationship with the patient are</p>	<p>D.W4., D.W7., D.W9.</p> <p>D.W7.</p> <p>D.W5., D.W8., D.W9.</p>

	<p>indicated, attention is paid to the use of relationship-building skills in a conscious manner.</p> <p>W4 * - Methods to improve communication and errors in communication. Presentation of methods to improve communication - including structures and schemes. Discussion of communication errors, their consequences for the relationship with the interlocutor and alternatives to less effective formulations.</p> <p>W5 * - Motivational Dialogue. Presentation of the theoretical principles of Motivational Dialogue and its exemplary applications in dental practice.</p> <p>* Lecture made available for a limited time on the e-learning platform (asynchronous).</p>	<p>D.W5., D.W9.</p> <p>D.W9.</p>

7. LITERATURE

Obligatory

Supplementary

Brown J., Noble L.M., Papageorgiou A., Kidd J. (ed.), *Clinical communication in medicine*, Wiley Blackwell 2016.
Maguire P., *Key communication skills and how to acquire them*, BMJ 2002;325:697.
Silverman J., Kurtz S., Draper J., *Skills for Communicating with Patients*, CRC Press Taylor & Francis Group 2013.

8. VERIFYING THE EFFECT OF LEARNING

Code of the course effect of learning	Ways of verifying the effect of learning	Completion criterion
D.W4., D.W5., D.W7., D.W8., D.W9.	Passing e-learning activities (including watching videos, doing exercises, preparing a script for a talk) by the date specified in the e-learning schedule.	e.g. threshold number of points

9. ADDITIONAL INFORMATION

- The on-line lectures have been prepared taking into account the most up-to-date methodology and wide possibilities offered by the software - they are accessible, interactive and engaging the audience in various ways. The main focus is on practical aspects of communication with patients, with direct impact on the dentist-patient relationship.
- Due to the nature of the lectures (on-line, asynchronous) there is no excuse for not completing the material in the indicated time. The time given for submitting the assignment is not to be exceeded - please take this into account so that possible equipment failures or interruption of Internet access do not prevent you from completing the course.
- The person responsible for teaching the course in the given year: Antonina Doroszewska – antonina.doroszewska@wum.edu.pl

In technical matters related to the implementation of the course, please write to: skm@wum.edu.pl.

We invite you to participate in meetings and research work as part of the Medical Communication and Education Student Club at the Medical Communication Center of the Medical University of Warsaw; Student Club Supervisor Antonina Doroszevska, PhD; email: antonina.doroszevska@wum.edu.pl.

Medical University of Warsaw has property rights, including copyright, to the syllabus. The syllabus may be used for educational purposes at the MUW only. Using of the syllabus for other purposes requires consent of the MUW.

ATTENTION

The final 10 minutes of the last class of the block/semester/year should be allotted for students to fill out the Survey of Evaluation of Classes and Academic Teachers
